

Evaluation form for Course:

"Wastewater treatment and reuse"

**Horizon 2020 Capacity Building/Mediterranean Environment Programme**

Learning objectives:

To promote integral thinking: e.g. interaction between drinking water consumption and wastewater production; to introduce wastewater reuse through integrated water resources management; to spread knowledge on technologies and technology selection.

Note: Please, grade the four statements below by using the following numbers indicating your opinion:

- 5 I strongly agree
- 4 I agree
- 3 Neutral
- 2 I disagree
- 1 I strongly disagree
- 0 -

GENERAL IMPRESSION		GRADE
1)	The course enabled me to achieve learning objectives as stated above	4.65
2)	The total available time (4 days) is reasonable for the amount of material to be studied	3.35
3)	The balance between theory and practice is right	4.40
4)	The course is evaluated in an appropriate way	4.70
<b>AVERAGE GRADE</b>		<b>4.28</b>

Note: Please, evaluate each subject/activity/teacher on the following statements by using the grades above.

- 5.A) The subject is relevant for me as a professional
- 5.B) The lecturer gives a clear presentation and is straightforward to follow
- 5.C) The materials (notes, hand-outs, etc.) are clear and well structured
- 5.D) There is sufficient possibility for questions and discussion

	SUBJECT	ACTIVITY	LECTURER	GRADES				AVERAGE GRADE
				5A	5B	5C	5D	
1	Status of sanitation	lecture	Moustafa Mousa	4.85	5.00	4.65	4.55	4.76
2	EU legislation and EU funded projects	lecture	Koussai Quteishat	4.45	4.90	4.70	4.55	4.65
3	Marine pollution, examples for the Mediterranean	lecture	Moustafa Mousa	4.45	4.85	4.75	4.65	4.68
4	Introduction Objective Oriented Planning	lecture	Moustafa Mousa	4.70	4.95	4.75	4.60	4.75
5	Exercise and local case OOP	workshops	Quteishat/Mousa	4.85	4.70	4.80	4.60	4.74
6	Summary of various sanitation technologies	lecture	Moustafa Mousa	4.75	4.85	4.65	4.70	4.74
7	Treated wastewater reuse	lecture	Koussai Quteishat	4.95	4.90	4.80	4.65	4.83
8	WHO 2006 Guidelines for safe reuse	lecture	Moustafa Mousa	4.50	4.60	4.45	4.55	4.53
9	Natural treatment systems	lecture	Moustafa Mousa	4.85	4.80	4.70	4.70	4.76
10	Decentralized Treatment	lecture	Moustafa Mousa	4.95	4.80	4.65	4.60	4.75
11	Financial aspects	lecture	Koussai Quteishat	4.30	4.75	4.55	4.55	4.54
12	Financing models	lecture	Koussai Quteishat	4.20	4.80	4.60	4.55	4.54
13	Costal Zone Management	lecture	Koussai Quteishat	4.35	4.75	4.65	4.75	4.63
14	Exercise using WAWTTAR	workshops	Quteishat/Mousa	4.85	4.85	4.85	4.55	4.78
<b>AVERAGE GRADES</b>				4.64	4.82	4.68	4.61	<b>4.69</b>
<b>OVERALL ASSESSMENT</b>				<b>GRADE</b>				
6)	I would rate this course as (use range between 1-low and 5-high)			<b>4.93</b>				

Particular comments:

- very good and important to Albania conditions. The team members as Koussai and Moustafa were excellent on teaching and training.
- I'm Environmental Engineer and think that training is very good for me. I teach more from this course. Thank you very much.
- I appreciate very much this training because I learn a lot about wastewater treatment. I am finishing a Master for Environmental Technologies, so this training helped me to clarify some new technologies. Thank you!
- It was very interesting workshop. Also very useful for me. It gives me a lot of new information in wastewater plants and how to reuse it. It updates me with the new technologies in this branch. I enjoyed it very much. It was just that I was looking for. I also take information about water management and water resources. Thank you!
- This workshop was very interesting for me. I receive more information about wastewater treatment . The presenters were excellent. I enjoyed it very much.
- The course was great and so were the trainers as well. The only recommendation would be to provide handouts of presentations well in advance to the participants in order to take notes on them during the presentation.
- A very big thank you for the two trainers Dr. Moustafa Mousa, Dr. Koussai Quteishat, deputy team leader Dr. Emad Adly and Mr. Dimitris Faloutsos
- Thank you very much for giving us the chance to have more details for the wastewater end the reuse and especially for having the opportunity to learn a new software as WAWTTAR. The only comment that I have for this course is reading the materials (notes) that maybe it would have been better that we have it in advance. So we could look at it before and we would have been more focused in the specifics details of the course. In this way, we would have also questions and comments to make to the lecturer. The time for all this information in the 4th days course, it was not enough to benefit all these knowledge. Anyway we really hope to have other chances for what I have mentioned above. Thank you!!!
- Thank you.
- Thank you so much!
- Thank you very much for choosing me. The training course was very interesting and very useful for my profession. For my profession it would be very important to take deeper knowledge in this field. Because I'm on Environmental Engineering and I want to deepen my knowledge in WWTP. The program WAWTTAR was great. Thank you again.
- Thank you very much for this training. It was so helpful to me. Everything explained in the lecture was very clear and professors were at any time ready to help us. Also the themes treated in this training were so adoptable for Albania and with the exercise parts and especially with program WAWTTAR I am excited to use in cases here in Albania. Thank you again!
- There are very important topics in my country. My knowledge has expanded in this topics. The course will help me in my daily work because this experience is lacking in this country.
- I suggest to include the cost of the travel for the participants outside Tirane. To pay the accommodation also for these participants (hotel, breakfast, dinner etc) The course was interesting even lasted all the day.
- 1. The course was very interesting, too much knowledge for me .. has ..so much background. My advance is to have it nearby a comity when a plant is located and ready to see comparison between theory and practice.  
2. Given presentation were much more concentrated on topics, it's time you are going a lot of explanation speech was orally and not in written form. Do you have a possibility to send us text focus?
- The course is very good is also very good. We shall have more courses but not 4 days but longer
